ly All totals are from unrounded data. Includes data for farms participating in the Conservation Reserve Program. 2/ Includes all farms earning a diversion, price support, or substitute crop payment, and farms diverting to substitute crops for which there was no diversion payment. 3/ From the December 1964 Annual Summary of Grop Production. 4/ Not adjusted to exclude data relating to substitute crops for which a partial payment or no payment was made. A From earlier unadjusted enrollment reports. Does not equal the sum of the individual crop entries because of source differences. ‡ Includes all sorghums. • Excludes all data relating to feed wheat. * Includes acreage harvested for grain, silage, or forage.
